

LIW | Leadership, not just leaders

Susanne Lagis

Associate Consultant

susanne.lagis@liw3.com

With over 16 years experience in organisational development, Susanne has a proven track record in change management, leadership, learning and talent development. She is a seasoned facilitator, coach and mentor, delivering across all levels of business.

Susanne has a varied background working in corporate, education and retail before branching out in her own consulting business several years ago. She has worked for British American Tobacco, Caltex, Coles Myer and TAFE, honing her organisational development, training and business skills throughout her professional career, and undertaking a number of senior leadership roles. Graduating with an Executive MBA in 2009, her passion for growing successful businesses, through building strong talent pools and managing people through change and transformations effectively, was fuelled even further.

Susanne is passionate about providing people with the opportunity to grow, learn and develop as individuals, team members and employees. She understands the importance of supporting people in times of change, and the balance between the needs of the individual and the needs of the organisation. She is values driven, believing firmly in leadership at all levels, and role models the behaviours she encourages in others.

Susanne is mother to toddler twins, and volunteers with her local Multiple Birth Association where she has been elected to a committee position.
