

LIW | Leadership, not just leaders

Tarnya O'Hara
Project Manager
Tarnya.Ohara@liw3.com

I am an enthusiastic and committed project Manager (12 + years) and various other positions (25+ years) working in the mining and resources, oil and gas industries in Australia.

I began my career working in project administration across various sites in the South-West of Western Australia and later moved into Contractor Management where I expanded my industry experience into Queensland.

After completing a range of tertiary studies in health and safety, environmental and quality I decided to take the leap into project management and since then have managed a variety of small and large projects in Western Australia, New South Wales, South Australia, and the Northern Territory.

Mining equipment from design to install, business closures and relocations, structural and civil projects as well as power and water services are some of the projects, I have been involved in.

My objective is to continue as an agile Project/Delivery Manager where I can contribute to the successful delivery of projects, discover innovative solutions, and energise team talents.

Mini Bio

- I enjoy a variety of projects and coming from a mining, construction and oil & gas background have certainly had that. Value client relationships. Passionate about staying active - running, walking and cycling and it's a must to live by water.

Qualifications

- Project Management Diploma - Curtin University WA (157706)
- Work Health & Safety Cert IV (BSB 41415)
