

LIW | Leadership, not just leaders

Nerilee Gregory

Finance Manager

Nerilee.gregory@liw3.com

Nerilee has spent 20 years as a Management Accountant and Financial Executive, partnering with various companies from Renewable Energy to Healthcare to Professional Services, both listed, private and government funded. Her early career started in the Advertising and Media industries, with responsibilities for managing the accounts and budgets for multi-national clients such as Amex, IBM and Telstra. The media industry took her to positions in London, Canada and France.

On returning to Australia, Nerilee took on the challenge of starting up her own financial accounting business which introduced her to a completely different set of clients with their own individual needs. These relationships have continued for over 20 years.

Nerilee has formal training with the University of New England where she completed her Post-Graduate Professional Accounting qualifications in 2014. She is a member of the Institute of Public Accountants (IPA), the Tax Practitioner Board (TPB) and the Australian Bookkeepers Association (ABA).

Nerilee started with LIW in 2015 and currently manages the global Finance Team. She is dedicated to the Professional Accounting values and integrity standards and enjoys bringing her experience to LIW's day to day accounting systems, financial reporting and financial control. Recently, Nerilee has enjoyed steering a digital transformation toward cloud accounting and is currently delving into the endless possibilities of a paperless, cloud based Financial Management team.
